

Swayam Netke

AI & DATA SCIENCE · PYTHON DEVELOPER · OPEN TO INTERNSHIPS

Ghatkopar, Mumbai · +91 84519 82151 · swayam2464@gmail.com · [LinkedIn](#) · [GitHub](#)
· [Medium](#)

PROFILE

B.Tech student in Artificial Intelligence & Data Science with hands-on experience building end-to-end data pipelines, training ML models, and automating data collection at scale. Comfortable working across the full ML lifecycle — from raw data acquisition to model evaluation. Currently seeking internship opportunities in data science, ML engineering, or backend automation.

EXPERIENCE

Freelance Data Engineer & Automation Developer 2025 - Present

- Built scalable web scraping pipelines using Scrapy and Selenium for structured multi-domain data collection.
- Designed reusable, modular architectures for automated data processing, transformation, and storage.
- Delivered clean, analysis-ready datasets reducing downstream preprocessing effort significantly.

Technical Writer · **Medium** 2025 - Present

- Published articles on Python, data engineering, and automation — translating technical concepts into practical guides.
- Developed a public portfolio of written work demonstrating deep understanding of applied programming.

PROJECTS

AI-Based Road Accident Risk Prediction System

Built a classification model to predict accident risk from real-world road data. Achieved ~75% test accuracy and optimized decision thresholds to improve severity detection recall — directly relevant to real-world deployment where false negatives carry high cost. *Stack: Python, Scikit-learn, Pandas, NumPy.*

Web Data Extraction & Automation Suite

Designed and implemented a production-ready scraping framework capable of extracting structured datasets across multiple domains. Automated storage pipelines reduced manual data handling to near-zero. *Stack: Scrapy, Selenium, BeautifulSoup, MongoDB.*

EDUCATION

B.Tech — Artificial Intelligence & Data Science 8.66 / 10

Shah and Anchor Kutchhi Engineering College, Mumbai 2024 - 2028

Relevant Coursework: Data Structures & Algorithms · Database Management Systems · Artificial Intelligence · Machine Learning · Probability & Statistics

CERTIFICATES

- Python & C Training — Indian Institute of Technology, Bombay
- Principal Component Analysis (PCA) — Coursera
- Pandas — Data Manipulation — Kaggle
- Data Analytics Job Simulation — Forage
